Why we wear tennis shoes in PE ?

I require students to wear proper tennis shoes in physical Education for a few very important reasons.

- The first reason is solely your child's **safety**. In PE, we participate in activities and games where we are running and or otherwise moving quickly. Slick soled shoes present a threat to not the person wearing them but their classmate as well.

- Another reason I require proper shoes is for ease of movement. Movement and skills are a part of every lesson. The students can move quicker or kick the ball better when they are wearing the proper shoes.

Thank you for cooperation!
